

On February 1st the membership voted the current organizing subcommittee be disbanded and was carried they then solely left the completion and organization of the Nationals to be left to the current Cortina Mark One Owners club of Aust Inc. committee.

As a member & president of the subcommittee i was told by the membership I was NOT a fit and proper person to continue NOT a good club person, a black mailer, in it for financial gain and generally despised and hated by the membership after the comments were heard.

The work that I had done from conceptional idea of the Nationals had not been appreciated or had any substance.

I accept the motion and will move on. But I cannot assist knowing that the membership do not want me and don't want me to be involved as they clearly had their say on the night.

I am very disappointed the membership has no confidence in me or feel I have not contributed to the club or the Nationals over the years.

I'm hope you can understand why I cannot go against the majority ruling and clearly if I did further involve myself it would be against the clubs membership wishes which would create further problems within the club.

I would like to say thank you to all enthusiasts around the country who have given me support and have supported the event. A previous club person of the year to now the most despised and hated.

Yours Sincerely,

Julie Osbourne
